

CLIPPER PNEUMATIC ONE-CLIP

TECHNOCLIP-CORUND 1-2.0; 1-2.5; 1-2.5 F; 1-7.0 FOR BAGS

1. FOR BAGS AND NETS
2. FIRM AND RELIABLE PACKAGING
3. SUITABLE FOR CLIPPING OF NATURAL AND ARTIFICIAL SAUSAGE CASINGS

APPLICATION AREA

TECHNOCLIP CORUND 1-2.5 (1-2.5 F) clipper is designed for easy and reliable clipping of sausage casings, bags and nets. Due to the wide range of clips applicable there, it is easy to clip packages and products of different sizes.

ADVANTAGES

- User-friendly quick and easy working process
- Opportunity of design as for left-sided so for right-sided production lines
- Clipping starts with lever activated with casing bundle
- Integrated pneumatic knife for cutting ends of bags or casings
- Hygienic stainless steel construction
- Optimal price/quality balance
- Low cost of maintenance due to small quantity of moving wearing parts

FUNCTION AND OPERATION

The clipper TECHNOCLIP 1-2,5 for bags - is intended for one-side closing of bags and different casing with the aluminium clips. Placing of clip comes after putting of casing or bag bundle into the clipping groove.

OPTIONAL EQUIPMENT

Implementation with spool clipping system
Special design of TechnoClip Corund 1-2.5 F for working on a flat clip with data stamping system
Special device for vacuuming the bags
