

CLIPPER MANUAL MECHANIC ONE-CLIP TECHNOCLIP-CORUND 1-2.5 M

1. FOR CLIPPING OF NATURAL AND ARTIFICIAL SAUSAGE CASINGS
2. COMPACT AND RELIABLE
3. SUITABLE FOR BAGS AND NETS CLIPPING

APPLICATION AREA

Mechanical one-clip clipper TECHNOCLIP CORUND 1-2.5 M (KRN) is intended to use for small sausage production factories, other small food factories, and also for trading departments of semi-finished food products. Clips one end of the sausage loaf in a time. The production capacity depends on individual operator's skills and can be up to 500 kg in a shift. The material used for clipping machine manufacturing is stainless steel. The simplicity of the design ensures high reliability and durability of the machine.

ADVANTAGES

- Does not require any compressed air system
- Hygienic design
- Low weight
- Economic in cost and reliable in use

TECHNICAL PARAMETERS

Casing caliber, mm	30-90
Clip type in use	E210, E220, E230, M1, M2, M3
Cut-off knife	manual
Overall dimensions, mm	300x200x850
Weight, kg	10
